## I-90: Interstate 90 Overlay

### 820 Interstate 90 Overlay District<sup>1</sup>

Due to unique circumstances that exist at the Interstate Exit area, the following special circumstances shall apply to building heights for structures that are within this overlay district as seen on the Official Zoning Map.

The Interstate 90 Overlay District includes both the Accommodation Commercial District (AC) and the Industrial Office Park District (IOP).

The purpose of the AC (Accommodation Commercial) District is to encourage the establishment of areas for highway commercial uses only. This district is specifically designed to service the motoring public. AC Districts are generally associated with interchange areas along the major limited access highways. See AC District for more information.

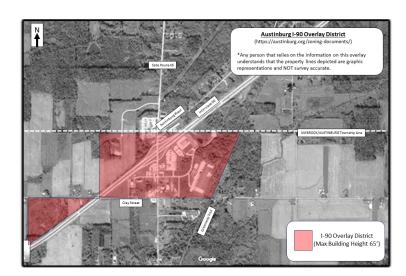

The purpose of the IOP (Industrial/Office Park) District is to provide a protective zone for a park-like development of industry, warehousing, distributing and office buildings. These regulations have been established so as to provide a healthy operating environment for industrial, distribution and office uses and to protect these uses from encroachment from residential & retail commercial uses. The regulations for this district are intended to minimize the impact of the allowable uses on surrounding non-industrial land uses; to lessen traffic congestion; to protect the health and safety of the residents & workers in the area; to prevent detrimental effects to the use or development of adjacent properties or the general neighborhood. See IOP District for more information.

All standards apply as written in the zoning code for Accommodation Commercial and Industrial/Office Park, *except* the Principal Max Building Height will be 65 feet if it falls within the I-90 Overlay District as defined by the legal description and Map, Figure X.

All Ohio Revised Codes apply.

In recognition of the district characteristics and constraints presented by the areas surrounding interstate and limited access highways, specific regulations are hereby established for the Interstate 90 Overlay District. It is important to note that **this map** provides approximate boundaries of the Interstate 90 Overlay District. The property owner or purchaser must verify, through survey, the precise legal coordinates of a specific lot. The **map** provided below **is an estimate** used to identify approximate boundaries for the creation of an overlay district within Austinburg Township.
